

## Annoucement

**Lead time:** Until end of 2021-09-08

**Annoucement #:** 2021-172-67025

**Adres e-mail for placing quotes:** info@avicon.pl

**Contact person:** Michał Ćwiek tel. +48 22 631 03 71

**Shortened description:** Hiperspectral linescan camera, spectral range 400-700 nm

## Description

**Target of purchase:** The purpose of the purchase is to conduct research and develop the measuring head.

### Detailed description:

Hiperspectral linescan camera:

- resolution: not less than 1024 px
- spectral range: covering 400-700 nm range
- spectral resolution: not worse than 2,7 nm
- acquisition frequency (all bands selected): not less than 500 Hz
- acquisition frequency (one band selected): not less than 9 kHz
- interface: Camera Link
- lens viewing angle: between 37°-39°
- ability to mount C-mount lens
- integrated shutter allowing to perform sensor calibration.

**Criteria for evaluation of quotes:** Price – 100%

**Project ref #:** POIR.01.01.01-00-1045/19
